

PROFESSIONAL PROFILE

Technical Artist specializing in optimized **3D** environments for professional simulation and interactive real-time applications. Complete **technical pipeline** management: **modular PBR**, render optimization (**draw calls**, **Channel Packing**, **Atlasing**), **Shader Graph**, and lighting in **Unity**. Experienced working in **multidisciplinary** teams (art, programming, design) using **Agile methodologies**. Specialization in vocational **training applications** and **simulated training** environments (public Bachelor's Thesis project: 3D ECOE Clinical Simulator). **English C1**.

FEATURED PROJECTS

3D Clinical Simulator for ECOE Exam Preparation | Bachelor’s Thesis – URJC Jan 2026 – Jul 2026

Technical Artist & Environment Lead | Unity 6 + Blender

Clinical simulation product for vocational training (educational/institutional use).

- End-to-end development of the **3D environment** (custom **assets**, **PBR textures**, and **layout**) and first-person medical simulation.
- Scalable **modular system** + **optimization pipeline** (Texture Atlasing, ORM Channel Packing) to control materials and **draw calls**.
- **Shader Graph** implementation (Fresnel highlighting, modular tinting, dynamic numbering) and **lighting** (Baked GI + Light Probes).
- Full **UI/UX** design and implementation; validated using Unity **Profiler** and user research studies.

UNCHAINED (Horror) | Steam (Demo) 2023 - 2025

3D Artist & Animator | Unity + Blender

3D art direction, **character** and **environment** modeling, Animator system, and State Machines in **Unity**. Published on **Steam**.

Once Button a Time (Puzzle) | Virtual Core Game Jam 2023

3D Environment Artist | Unity + Blender

Environment and puzzle **prop** modeling. Integration in **Unity**, ensuring visual consistency and mechanic functionality.

RELEVANT EXPERIENCE

IT Support & Helpdesk Specialist | Universidad Rey Juan Carlos Jan 2026 – Jul 2026

Equipment maintenance, technical issue resolution, and **hardware/software** support for end-users. **Ticket management** and incident documentation.

Food & Beverage Operations & Guest Experience | The Walt Disney Company (Florida, USA) Jun 2025 – Aug 2025

Operations and customer service in a **high-volume** environment. Multilingual, multicultural teamwork, **professional English** communication (C1), real-time **issue resolution**, and compliance with international quality standards.

EDUCATION

Bachelor’s Degree in Video Game Design and Development | Universidad Rey Juan Carlos, Madrid, Spain 2022 - 2026

Relevant Coursework: Advanced Graphics Processors, Graphics Architectures, Computer Graphics, Human-Computer Interaction & Usability, Game Engineering, AI Development, Physics for Video Games.

Erasmus Program | Haaga-Helia University of Applied Sciences, Helsinki, Finland Aug 2025 – Dec 2025

International collaboration, creative design processes, and project-based learning.

TECH STACK

- **Engines:** Unity 6 (URP, Profiler, Shader Graph)
- **DCC / Modeling:** Blender (Advanced), 3ds Max, Substance Painter, SketchUp
- **3D Pipeline:** High/Low Poly, UV Unwrapping, Baking (Normal, AO, ORM), Texture Atlasing
- **Technical Art & Optimization:** Procedural Materials, RGBA Channel Packing, Material Property Blocks, Light Probes, Profiling, Frame Debugger, Batching, Occlusion Culling
- **Programming:** C#, Python, C++, Java, OpenGL
- **DevOps / Collaboration:** Git, GitHub, GitHub Desktop, Jira, Notion, Scrum/Agile

ACHIEVEMENTS & AWARDS

Winner of Game Scholars Game Jam, **finalist** for the Devuego National Award, **3rd place** in Virtual Core Game Jam, recognition and presentations at national game development competitions.

LANGUAGES

English: C1 Spanish: Native

INTERESTS

Experimenting with **AI tools** and new software updates to optimize workflows. Virtual cinematography and art direction.
